Satellite and Geo-Tagged Site Map Description

Document reference: DOC_14_SITE_MAP | Scenario: New Institution — Initial Approval

Important notice

This entire document is fictional and generated only for software testing. It is not issued by a real authority, bank, professional, or legal entity; it is not signed, stamped, sworn, registered, or valid for official use.

Site identification

The synthetic site-map record identifies the proposed campus of Sahyog Institute of Engineering and Technology at Plot 18, Knowledge Park Road, Village Rampur Kalan, Tehsil Nandipur, District Sehore, Madhya Pradesh. The map annotation associates the campus parcel with Khasra Nos. 114/2, 115/1 and 116/3.

Geospatial annotation

The centre point shown for test purposes is latitude 23.2031 and longitude 77.0846. The sketch is described as showing the outer plot boundary and the access road along the eastern edge, with the three khasra parcels labelled within the overall site.

Interpretation note

Coordinates and boundary descriptions are fictional test values and are not intended to identify or certify a real parcel. This narrative page is supplied to test whether a VLM extracts coordinates and boundary evidence from prose and a simple schematic.

End of synthetic test document.
